ENG101

Portfolio Essay

My name is XXX I am an 18-year-old freshman at the University Of The Virgin Islands. My college experience was not what I expected. Right when I was about to finish high school a pandemic arose. So far, the covid 19 virus has made my past year in college very different from what I had expected. I was not able to physically attend college but was stuck doing it online.

Nevertheless, online school does have its benefits. With online school time is more manageable without the inconvenience of driving town for me because I live in the country. It also gives me a better working paste since I can manage all my assignments from online. The online school helps to balance working and school at the same time. At first, I did not like it but now I am used to it and will continue to use it until we are back in physical classes.
